

AERM Policy Plan

Our objectives are to:

- Bring together republican movements in Europe and strengthen their campaigns through cooperation and mutual assistance.
- Provide affiliated organisations with practical support in the development and realisation of their national campaigns.
- Acquire financial and other resources that are not accessible to individual members.
- Build relationships with republican movements in Europe and other parts of the world.
- Encourage the establishment of new campaigns in European countries where there is not yet a republican movement in an organised form.
- Be committed to the ideals of democracy and equality as outlined in the national constitutions of the affiliated organisations and the Universal Declaration of Human Rights.
- Actively work towards replacing respective monarchies with republics based on the principles of democracy, accountability, transparency, and merit for each participating organisation.
- Engage in any other activities that are connected to or in furtherance of these objectives.

Acquiring funds:

- All member organisations dedicate 1% of their yearly revenue to AERM
- AERM will look for funds and subsidies from other organisations with similar objectives (eg: strengthen democratic rule of law, democracy, human rights)
- AERM will sell tickets for events and merchandise

Management and spending of funds:

- Funds will be managed by treasurer of the organisation
- Decisions on spending will be taken by the board of directors as outlined in the statutes of the organisation (one vote per member organisation)
- Each director shall avoid every form and appearance of personal advantage or conflict of interest between themselves and the foundation
